PUBLIC WORKS

PLEASE TAKE NOTICE:

On July 1, 2008 the California Integrated Waste Management Board sent the Department of Public Works, via certified mail, a Notice to Intent (NOI) to include the Imperial Solid Waste Site in the Inventory of Solid Waste Facilities that Violate State Minimum Standards (Inventory) pursuant to Section 44104 of the Public Resources Code (PRC). You were further notified that if the violation of Title 27 California Code of Regulations (CCR), Section 20820 – Drainage and Erosion Control were not corrected within 90 days (on or before October 07, 2008) the facility would be placed in the State Inventory. Additionally, the Colorado Regional Water Quality Control Board (RWQCB) issued a notice of noncompliance on April 25, 2008 to correct the violation by June 30, 2008.

Inspections of the site conducted by the Local Enforcement Agency (LEA) on March 11, April 27, May 13, June 10, July 8, August 5, September 9, and October 7, 2008 documented that the Imperial Solid Waste Site was in violation of Title 27 CCR § 20820 – Drainage and Erosion Control. Groundwater seepage was observed surfacing within the disposal footprint. Written notices of these violations were provided to the operator.

Since the Imperial Solid Waste Site has failed to comply with the requirements of Title 27 CCR § 20820, the LEA has the authority to order a compliance schedule to ensure progress will be made to bring the facility into compliance, pursuant to Section 44106(b) of the Public Resources Code.

WHEREAS, the Imperial Solid Waste Site located at 1705 W. Worthington Road, (approximately 6 miles west of the City of Imperial, California), described as portion of the south 1/2 of Section 24, Township 15 South, Range 12 East, San Bernardino Baseline and Meridian, Assessor Parcel Number: 034320050;

WHEREAS, the Imperial County Local Enforcement Agency has the authority to act in the capacity of an enforcement agency (EA) for this facility pursuant to the Public Resources Code, Section 43200 et seq., and is so acting; and

WHEREAS, the Imperial County Department of Public Works shall operate the Imperial Solid Waste Site (Facility Number: 13-AA-0001) in accordance with Title 27 of the California Code of Regulations.

THEREFORE, YOU ARE HEREBY ORDERED TO DO THE FOLLOWING:

Complete the following actions on or before the date specified herein:

1. Submit a remediation work plan to correct groundwater seepage located within the disposal footprint.	**February 1, 2009**
2. Correct seepage within disposal footprint to the satisfaction of the RWQCB and the LEA. No waste shall be disposed of within the impacted location.	**May 15, 2009**

3. Obtain necessary approvals to install an access road along the toe of the western slope for ongoing maintenance and erosion control.	**May 15, 2009**

FURTHER NOTICE:

PURSUANT TO PRC SECTIONS 44305, 44306, 45011, 45014, AND 45023, if the above actions are not completed or complied with by the specified dates, the Local Enforcement Agency may:

1. Petition the superior court for injunctive relief to enforce this Notice and Order. [PRC Section 45014]
2. Petition the superior court for civil penalties in an amount not to exceed $10,000 per day for each violation. [PRC Section 45023 and 45024]
3. Impose administrative civil penalties in an amount not to exceed $5,000 per day for each day the facility fails to achieve compliance with the time frames specified above. [PRC Section 45011]
4. Suspend or revoke the Solid Waste Facility Permit. [PRC Sections 44305 and 44306]

In the event the time frames for completion of the above-specified activities cannot be adhered to due to adverse weather or other factors not in the control of the operator, the LEA may extend the time frames based upon those specific factors provided by the operator in writing. Any such extension to the time frames or other amendment to this Notice and Order shall be in the form of an Amended Notice and Order.

Failure to remedy the aforementioned violation(s) by the required date(s) may result in the California Integrated Waste Management Board (CIWMB) expending available funds to perform any cleanup, abatement, or remedial work needed to protect public health and safety or the environment pursuant to Public Resources Code section 48020. If the CIWMB expends funds to perform any cleanup, abatement, or remedial work, the CIWMB may seek repayment from responsible parties pursuant to Public Resources Code 48020 et seq. Moreover, funds so

expended by the CIWMB constitute a lien upon the real property owned by any responsible party that is subject to the remedial action, pursuant to Public Resources Code section 48023.5.

Nothing in this Notice and Order shall constitute or be construed as a satisfaction or release from liability for any conditions or claims arising as a result of past, current, or future operations. Notwithstanding compliance with the terms of this Notice and Order, the owner and operator may be required to take further actions as necessary to protect the public health, safety, or the environment.

The LEA shall not be liable for injuries or damages to persons or property resulting from acts or omissions by the owner or operator or related parties in carrying out activities pursuant to this Notice and Order, nor shall the LEA be held as a party to any contract entered into by the owner or operator or their agent(s) in carrying out activities pursuant to this Notice and Order.

This Notice and Order is supported by the accompanying declaration of Fernando Villa.

This Notice and Order does not relieve the owner or operator from complying with all other local, state, and federal requirements, nor does it preclude the LEA or the CIWMB from taking any and all other actions allowed by law.

This Notice and Order may only be amended in writing by an appropriate representative of the LEA.

PLEASE TAKE NOTICE THAT:

Pursuant to Title 14 CCR Section 18304(b)(8), the person or entity named in this Notice and Order has the right to appeal this Notice and Order to the Hearing Panel [PRC Section 44307]. A request for a hearing before the Hearing Panel must be filed within 15 days from the date of receipt of this Notice and Order. [PRC Section 44310]

This Notice and Order is issued as of the date set forth below.
