☐ No. If no, stop; not eligible for a TE or ADR.

☒ Yes. If yes, then eligible for a TE or ADR.

2. Specific Request and Length of Request

Please specify the request desired.

☒ **Time Extension Request**

Specific years requested _2001, 2002, 2003_____

Is this a second request? ☒ No ☐ Yes Specific years requested. _ _____

(**Note:** Requests for an additional extension will need to address why the jurisdiction's efforts to meet the 50% goal by the end of the first extension were not successful.)

☐ **Alternative Diversion Requirement Request (*Not allowed for Regional Agencies*).**

Specific ADR requested _ _____%, for the years_ _____.

Is this a second ADR request? ☐ No ☐ Yes Specific ADR requested _ ____%, for the years _ _____

(**Note:** Requests for an additional ADR will need to address why the jurisdiction's efforts to meet 50% by the end of the first ADR period were not successful.)

Note: Extensions may be requested anytime by a jurisdiction, but will only be effective in the years from January 1, 2000 to January 1, 2006. An original request for a TE/ADR may be granted for any period up to three years and subsequent requests for TE/ADR may extend the original request or be based on new circumstances but the total number of years for all requests cannot total more than five years or extend beyond January 1, 2006.

Section IIIA—TIME EXTENSION

Within this section, discuss your jurisdiction's progress in implementing diversion programs that were planned to achieve 50%. Provide any additional information that demonstrates "good faith effort." The CIWMB shall determine your jurisdiction's progress in demonstrating "good faith effort" towards complying with AB 939. Note: The answers to each question should be comprehensive and provide specific details regarding the jurisdiction's situation.

Attach additional sheets if necessary—please reference each response to the appropriate cell number (e.g., IIIA-1).

1. **Why does your jurisdiction need more time to meet the 50% goal? Describe why SRRE selected programs did not achieve 50% diversion. Identify barriers to meeting the 50% goal and briefly indicate how they will be overcome.**

The City of Exeter had planned to take all trash, commercial and residential to Tulare County Recycling, which is a dirty MRF during the FY 98/99. The City Council felt it was not in the best interest of the City because increases in the sewer rate was going to happen in 1999, 2000, 2001, and 2002 due to a Wastewater Treatment Plant expansion. After meeting with City Council again in 2000, they didn't know what was going to happen with the utility companies such as Southern Cal Edison and the Gas Company. They felt that the utility companies were going to increase rates and didn't want to burden the residents of Exeter with another increase.

2. **Why does your jurisdiction need the amount of time requested? Describe any relevant circumstances in the jurisdiction that contribute to the need for a Time Extension.**

The City of Exeter has asked for an extension till 2003. This time will allow the City of Exeter to resolve any issues with joining the JPA and the citizens of Exeter since plans are to increase their rates. If JPA is not allowed by the CWMB, a new base year will be seeked.

3. **Describe your jurisdiction's Good Faith Efforts to implement the programs in its SRRE.**

The current diversion rate for thye City of Exeter is 25%. Following are programs the City of Exeter are doing:

1. We have a drop off for all recycling materials at the City's Corporation Yard. It is open Mondays through Saturdays.

2. Cardboard and Newspaper bins have been put throughout the City. 2 newspaper bins and 3 cardboard bins.

3. Fliers about composting have been mailed out with the Consumers Confidence Report which is mailed out yearly.

4. Every year the Corporation Yard is open for one week in the spring and one week in the fall for residence can drop off greenwaste (prunings, etc.). Greenwaste taken to Tulare County Biomass for compost.

5. Each residence have a 90 gallon greenwaste can that is picked up once a week. Greenwaste taken to Tulare County Biomas.

6. Leaves are picked up by the City and taken to a farmer who uses it for compost.

7. Some education to public Schools about recycling and compostting.

4. Provide any additional relevant information that supports the request.

* The diversion percentages identified in the Plan of Correction reflect the estimated increases to the City's diversion rate and may result in a different percentage for the diversion estimates once the City joins the Regional Agency.

Section IV A—PLAN OF CORRECTION

A Plan of Correction is required by PRC Section 41820(a)(6)(B). The plan is fundamentally a description of the actions the jurisdiction will take to meet the 50% goal by the expiration of the Time Extension.

Attach additional sheets if necessary.
