Most Unique E-Waste Program

City of Los Angeles,

Bureau of Sanitation,
Residential Special Materials Section

- 20,000 residents have participated in the program
- More than 2 million pounds of e-waste has been collected with no increases in fees or taxes.

The City’s e-waste contractor, NxtCycle, collects business e-waste.

NxtCycle agreed to charge lower rates which were only enough to cover NxtCycle’s operating expenses.

- This e-waste collection for businesses is held once per month at each of the permanent collection facilities, on the same day as the CESQG collection.
