California Regional Water Quality Control Board
North Coast Region

Order No. 95-67

RESCINDING WASTE DISCHARGE REQUIREMENT ORDERS

The California Regional Water Quality Control Board, North Coast Region finds that:

1. Since the promulgation of the Porter-Cologne Act in 1970, the Regional Water Board has prescribed many waste discharge requirement orders which are no longer applicable, relevant or necessary. The Regional Water Board may rescind orders where such action is not against the public interest and promotes efficiency in administration of the law.

2. The Regional Water Board has reviewed its files and identified ninety-eight orders which it believes may be rescinded for reasons more fully described in a Public Report and Notice published on July 21, 1995.

3. The Regional Water Board has notified and attempted to notify the persons regulated by the identified orders and has notified interested agencies and persons of its intent to rescind the identified waste discharge requirement orders and has provided them with opportunities to submit their written views and recommendations regarding the action. The Regional Water Board noticed a public meeting to provide further opportunity to comment and recommend action.

4. This Regional Water Board action to rescind waste discharge requirement orders is exempt from provisions of the California Environmental Quality Act.

5. The Regional Water Board, in a public meeting, heard and considered all comments pertaining to this matter.

THEREFORE, IT IS HEREBY ORDERED that the Waste Discharge Requirement Orders identified on the following list be rescinded:

ID Number (Order No.)[1]	Name of Discharger/Facility	Rationale Code[2]
1A730340DN	Kings Valley Mobile Home Park	3,6

ID Number (Order No.)	Name of Discharger/Facility	Rationale Code
(81-165)	Brickwedel, Del Norte County	6
(81-164)	Munz, Del Norte County	6
(79-118)	Jayne, Del Norte County	6
(81-166)	Purdin, Humboldt County	6

1 The last two or three positions of the ID number are the acronyms for county name, "DN" = Del Norte, "HUM" = Humboldt, etc.

2 The rationale for the Board's proposed recision of the obsolete orders are as follows:

1 There is no longer a discharge or activity covered by the existing order which could affect water quality at the site.

2. There is no longer a discharge or activity under control of the named discharger

3. The discharger has complied with requirements which have effectively prevented discharge or activities which could have affected water quality and there is no reason to expect the situation to change.

4. The discharger has enrolled in the Statewide General Permit program and no longer needs site-specific Regional Water Board requirements.

5. The discharger is similar to those persons who qualify for waiver of requirements pursuant to Regional Board Resolution No. 87-113 and should be relieved of formal regulation and fee-payment obligations.

6. The discharger is effectively regulated by other public agencies or operation of State or local regulations, does not adversely affect the quality of beneficial use of water and there is no reason to expect the situation to change

Certification

I, Benjamin D. Kor, Executive Officer, do hereby certify that the foregoing is a full, true, and correct copy of an Order adopted by the California Regional Water Quality Control Board, North Coast Region, on August 24, 1995.

Benjamin D. Kor
Executive Officer
