Public Notice

County of Santa Clara Department of Environmental Health
Proposed Revision of the Transfer/Processing Report
Sunnyvale SMaRT Station (SWIS # 43-AA-0009)

County of Santa Clara
Department of Environmental Health

The Department of Environmental Health Local Enforcement Agency (LEA), which regulates the Sunnyvale Materials Recovery and Transfer (SMaRT®) Station, located at 301 Carl Road, Sunnyvale, CA 94089, received an application to amend the SMaRT Station® Transfer/Processing Report on May 10, 2007. Additional information and modified pages were received on June 19, 2007 to complete the application. The application has been deemed approved pursuant to Title 27, California Code of Regulations section21665(c) on June 21, 2007 and will be submitted to the California Integrated Waste Management Board (CIWMB) for filing.

The scope of the amendment contains the following changes:

- Remove the existing sorting equipment within the processing building, since it has aged and is increasingly difficult to maintain;
- Install new conveyors, trommels, baler, screens and magnets with support structures according to new engineered bid documents, drawings and plans.
- Add a mechanical sorting system for processing construction and demolition debris loads in order to increase recycling of materials such as wood, metals, concrete and other inert debris in the southern end of the building. Currently this type of material is sorted manually without specialized mechanical equipment.
- Provide new enclosures with air conditioning at the sorting lines for employee comfort and safety.

Pursuant to Public Resources Code (PRC) section 44307, if any person files a petition or appeal challenging this approval and alleges that this Agency has failed to act as required by law or regulation during the approval process of the amendment application, the Agency shall hold a hearing. The hearing will be conducted in accordance with the procedures specified in PRC Section 44310

Additional information about this approved application is available at the Santa Clara County Department of Environmental Health (DEH) and the City of Sunnyvale SMaRT Station as listed below. Copies of the current Transfer/Processing Report, the Solid Waste Facility Permit, and the proposed amendment documents can be viewed at the DEH and during business hours and by appointment by calling (408) 918-1964. The document viewing locations are ADA compliant facilities. Written comments or verbal comments may be submitted to the LEA until July 5, 2007.
